OBJECTIVE

Results-driven Information Technology undergraduate with strong skills in Java, Data Structures & Algorithms, Full Stack Development. Passionate about building scalable software solutions and solving real-world problems. Eager to contribute as a Software Engineer through innovation, collaboration, and continuous learning and growing both personally and professionally

EDUCATION

K.S.R. College of Engineering, Tiruchengode – Present
Bachelor of Technology – Information Technology; CGPA: 7.54

Sri Vidhya Mandir Matric. Hr. Sec. School, Gurusamipalayam – 2023
Higher Secondary Certificate (HSC) – 77.0%

Sri Vidhya Mandir Matric. Hr. Sec. School, Gurusamipalayam – 2021
Secondary School Leaving Certificate (SSLC) – 100%

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript
Web Technologies: HTML5, CSS3, Tailwind CSS, Bootstrap
Database: MySQL
Backend: Springboot, RestAPIs
Core Concepts: Object-Oriented Programming (OOP), Operating Systems, Database Management Systems (DBMS)
Developer Tools: Git, GitHub, VS Code, Eclipse, IntelliJ IDEA, Postman

INTERNSHIP

UI/UX Design Intern, STACK QUEUE, Salem, India 10 Jul 2024 – 24 Jul 2024

- Successfully completed a 15-day internship enhancing UI/UX design skills through practical design activities and creative problem-solving.
- user interface design principles to develop visually appealing layouts, focusing on design consistency, usability, and user experience. Strengthened creative thinking and design skills by exploring different design approaches and developing user-friendly interface concepts.

AI-Powered Web Development Intern, AZHIZEN, India 16 Jun 2025 – 30 Jul 2025

- Successfully completed a 15-day internship enhancing web development skills through practical development activities and AI tool integration.
- Explored AI-powered tools to support web development workflows, improve development efficiency. Strengthened technical skills by applying AI tools in web development tasks, focusing on efficient implementation and improved user experience.

PROJECTS

ZENO AI: AI-Powered Assistant

- Developed a full-stack AI platform featuring intelligent chat, OCR-based screenshot and code capture, and integration with multiple AI providers.
- Built an AI assistant using a Spring Boot backend with Gemini API integration, supporting web-based interactions and browser extension functionality.
- Designed a clean, user-centric interface with floating assistant capabilities to improve productivity, code assistance, and workflow automation.

Tech Stack: HTML, CSS, JavaScript, Java, Spring Boot, Gemini API, OCR, Browser Extension
GitHub: github.com/hariprasad8760-debug/Zeno

PulseGuard AI: Real-Time Deepfake and Liveness Detection for Secure Video Calls

- Developing a secure video calling platform with real-time deepfake detection and liveness verification to distinguish genuine users from manipulated or spoofed faces.
- Designed a room-based video calling system with unique room codes, caller and receiver connections, and video call controls for secure communication and to improve deepfake detection.

Tech Stack: Python, Deep Learning, HTML, CSS, JavaScript, WebRTC.
GitHub: github.com/hariprasad8760-debug/PulseGuard

Gig Worker: Location-Based Service Booking Platform

- • Developed a mobile-friendly platform connecting customers with gig workers such as plumbers, carpenters, and drivers, enabling convenient service booking and location-based access
- • Integrated GPS location tracking, service booking, and image-based issue reporting to improve service accessibility, simplify worker coordination, and enhance user experience.

Tech Stack: Next.js, TypeScript, Supabase, PostgreSQL, GPS, HTML, CSS

CERTIFICATES

- Python Certification - Bhumi supported by CGI and UniAthena
- NPTEL Cloud Computing - Elite
- SQL Basics - Online Certification
- AZHIZEN Project Completion - Movies Spot
- UI/UX Design Certification – TERN
